## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

### ***Allowable Subject Matter***

2. Claims 1, 3 and 62 – 92 are now allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1, 3 and 62 – 92 recite, inter alia, a method of manufacturing a semiconductor device comprising the steps of forming an amorphous silicon film that is provided with metal catalysts to promote crystallization, heating the film to crystallize, irradiating laser to distribute the metal in the crystallized film and then gettering the metal from the film for removal. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

### ***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
